Biography

Todd Mayberry joined YOUNG & Associates in 2022 as a Senior Regional Consultant. Todd has extensive experience with catastrophic events through the U.S., including hurricanes, explosions, fires, and floods. His responsibilities have involved estimating damages, site monitoring, inspecting, scheduling, document analysis, code analysis, and communication with building officials and various government agencies. Todd has been involved in numerous large complex insurance losses including residential, airports, federal buildings, state universities, baseball parks, hospitality buildings and hospitals in the United States, as well as Thailand.
