Biography

ZACH KIRKLAND joined YOUNG & Associates as an Associate Consultant in 2017. He has an environmental background and earned his BS in Environmental Science and Resource Management from the University of Washington in 2015. During his time at YOUNG & Associates, Zach has consulted in a catastrophe setting during Hurricane Harvey, as well as a variety of other residential and commercial losses. He has experience ranging from clerking construction and remediation projects, estimating and documenting construction repairs via on-site inspections, sketching and estimating properties in Xactimate, to researching pricing for specialty materials.
